

## Global leaders in High Temperature Coatings

Stove Bright® High Temperature Paint is a high quality, fast drying coating for a variety of properly prepared metal surfaces. The formula is rust resistant and maintains excellent color stability with in-service temperatures reaching 1200°F/650°C. Stove Bright® High Temperature Paint is the industry standard for hearth manufacturers, retailers and service providers.

Commonly used on:

- Wood stoves
- Vent Pipes
- Fireplace surrounds
- Fireboxes
- Boilers
- Furnaces
- Radiators
- Engines
- Auto exhausts
- Manifolds
- Mufflers
- Heaters
- Barbeques and much more!

- Resists scratching and marring
- Widest selection of decorative colors available
- Fast Drying aerosol formula
- Easy to use
- Resists rust
